

FOR IMMEDIATE RELEASE

## CSL Therapy's Regulatory Partnership Push to Minimize Misinformation in American Healthcare through Advanced Scholastic Trainer (AST) Program

[Bowie, MD, 2/22/24] - CSL Therapy, the regulatory pioneer in the field of Body Altering Aesthetics, is proud to announce its groundbreaking initiative aimed at reshaping the landscape of aesthetic healthcare in the United States. In an effort to combat misinformation and elevate standards within the industry, CSL Therapy is partnering with educators and enrolling them in the Advanced Scholastic Trainer (AST) Program.

The AST Program, renowned for its commitment to excellence and innovation, provides educators with comprehensive support, including quality assurance, course accreditation, access to a vibrant community, and legal representation through the Governing Bureau. CSL Therapy mission is accomplished by overhauling the educational opportunities and bridging the existing gaps in American Body Aesthetics healthcare; ensuring clients receive the highest quality of care from well educated professionals.

"Our partnership with educators through the AST Program signifies our unwavering dedication to raising the bar in the Body Altering Aesthetics industry," said Tia Keels, ACBAA Director of CSL Therapy's accrediting and advisory board. "By collaborating with educators who share our vision for excellence, we are poised to deliver unparalleled standards of medicine and dispel any misinformation that may exist."

Central to this partnership is the provision of an educational license, valid for two years and renewable thereafter, empowering accepted applicants to submit their courses for accreditation. This accreditation process not only ensures the quality and relevance of educational offerings but also underscores CSL Therapy's commitment to fostering a culture of continuous learning and professional development.

As pioneers in the field, CSL Therapy is committed to driving positive change and empowering practitioners to deliver exceptional care to their clients. Through strategic partnerships and a steadfast commitment to excellence, CSL Therapy is leading the charge in revolutionizing American Body Aesthetics healthcare.
